

S&H Form (2/01)
Docket No. 2003-1349-1028

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of:

Soon-kyo HONG et al.

Serial No. 09/955,061

Group Art Unit: 2651

Confirmation No. 8477

Filed: September 19, 2001

Examiner: Paul D. Kim

For: DISC BALANCING DEVICE, AND METHOD THEREOF

RECEIVED

OCT 09 2003

Technology Center 2600

RESPONSE TO RESTRICTION REQUIREMENT

RECEIVED

OCT 27 2003

TECHNOLOGY CENTER R3700

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

This is responsive to the Office Action mailed September 10, 2003, having a shortened period for response set to expire on October 10, 2003, the following remarks are provided.

I. Provisional Election of Claims Pursuant to 37 CFR §1.142

Applicants provisionally elect **Group 1, claims 1-4 and 14-16** in response to the preliminary restriction requirement set forth in the Office Action.

II. Applicants Traverse the Requirement

Insofar as Group II is concerned, it is believed that claims 5-13 are so closely related to elected claims 1-4 and 14-16 that they should remain in the same application. The elected claims 1-4 and 14-16 are directed to a disc balancing device and claims 5-13 are drawn to a method of balancing a disc. There have been no references cited to show any necessity for requiring restriction and, in fact, it is believed that the Examiner would find references containing both method and product claims in the same field of technology. While it is noted that the Examiner has identified different classifications for the product and method claims, it is believed that classification is not conclusive on the question of restriction. It is believed, moreover, that evaluation of both sets of claims would not provide an undue burden upon the Examiner at this time in comparison with the additional expense and delay to Applicants in having to protect the additional subject matter recited by the Group II claims by filing a divisional application.

MPEP §803 sets forth the criteria for restriction between patentably distinct inventions. (A) indicates that the inventions must be independent (see MPEP §802.01, §806.04, §808.01) or distinct as claimed (see MPEP §806.05-806.05(i)); and (B) indicates that there must be a serious burden on the Examiner if restriction is required (see MPEP §803.02, §806.04(a)-§806.04(i), §808.01(a) and §808.02). The Examiner has not set forth why there would be a serious burden if restriction is required.

III. Conclusion

Upon review of references involved in this field of technology, when considering that the method recited by the Group II claims is directed to a method of balancing a disc, and elected claims 1-4 and 14-16 are directed to a disc balancing device, and when all of the other various facts are taken into consideration, it is believed that upon reconsideration of the Examiner's initial restriction requirement, all of the pending claims should be examined in the subject application.

In view of the foregoing amendments, arguments and remarks, all claims are deemed to be allowable and this application is believed to be in condition for allowance.

If any further fees are required in connection with the filing of this Amendment, please charge the same to our deposit account number 19-3935.

Should any questions remain unresolved, the Examiner is requested to telephone Applicants' attorney.

Respectfully submitted,

STAAS & HALSEY LLP
